

COMPETITION REGULATIONS

“SOCIALLY RESPONSIBLE”

Preamble

The social responsibility of a university consists in taking into account the impact of the university's activities on society, the economy and the environment, as well as in promoting academic values. Universities should therefore contribute to shaping students' civic and social attitudes, developing staff competences, and building a positive image of the university as a socially responsible institution. In response to these challenges, the universities forming the VIZJA University Scientific Federation encourage the academic community — Students, Administrative Staff, Teaching Staff and Research Staff — to participate in the Competition.

*We invite you to participate,
